

Fixing Bracket Instructions

The bracket can be used in the following two ways for use with Gratnells Frames:

A: wall fixing bracket

B: Frame joining bracket

Use these images to put the brackets together in the correct way.

Contents

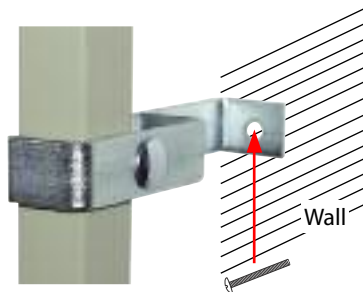

One bracket includes these 3 parts:

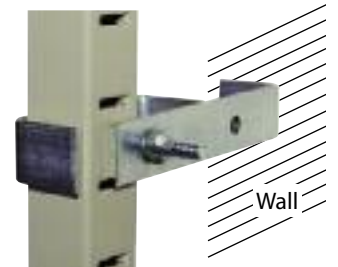

Wall fixing bracket

This is a top view. Put the bracket components together as shown. Screw the 'L' shape against the wall first. Put the frame through the section and fix the bracket.

Outside view.

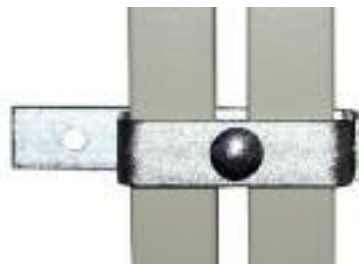

Inside view.

Frame joining bracket

This is a top view. Put the bracket components together as shown. One upright from each frame goes through each of the sections.

Front view.

Back view.
