

Now there's a home for big bears too.

The N1 tray

The N2 tray

Poor big bears. Until now, our N1 Shallow and N2 Deep trays in your furniture just didn't have enough room for their bigger size.

But from today, that's all changed, thanks to the new N3 Jumbo tray from Gratnells.

Measuring 300mm x 312mm x 377mm, the N3 Jumbo tray is deep enough to hold the larger items needed in school storage. Which means that your customers have even better storage choices.

Of course, the N3 Jumbo tray is fully compatible with its

smaller N1 and N2 relatives. It's tough, durable, and available in the same range of colours, plus lid.

We'd like to send you a free N3 Jumbo tray for you to consider.

All you have to do is go to www.gratnellstrade.co.uk/N3tray and order yours today. Or call Robert on +44 (0) 1279 401552.

With the new N3 Jumbo tray, your furniture range can now offer all kinds of equipment and materials storage – including homes for those bigger items.

That's great news for your customers.

And for all the bigger bears.

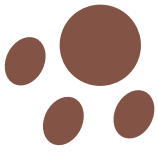

The NEW N3 Jumbo Tray

Dimensions: H300 x W312 x L377 mm
