

Tray Caddy

Mobile desk top storage

The caddy is a handy lift-out storage device which has been specially designed to store art and stationery materials in a Gratnells Deep Tray. The metal frame has six brightly coloured plastic pots and a handle to lift the whole unit easily in and out of the tray. The individual pots can also be removed from the caddy so you can share them round the classroom, and it's easy to store the whole lot away again at the end of the session. Just put the caddy back in the tray and the whole thing can be stored safely ready for the next time.
