Catapults STEM Challenge - instructions

- Construct two different craft stick catapults using the equipment provided in the tray. You do not have to use all the equipment.
- The winning catapult will be the one that shoots a pom pom the furthest (distance challenge).
- Extra bonus points will also be available for hitting a target (accuracy challenge).
- Do not take your catapults apart. At the end of the carousel, you will all test your catapults and points will be awarded.

Tidy up time:

- Put all spare equipment back in to your equipment tray and put the lid on.
- Place your two catapults on top of the lid and put your tray to one side.
- Put out a fresh equipment tray for the next team.
- Leave these instructions on top of the fresh equipment tray.
