Providing a platform for creative minds

Outstanding value and highly versatile staging

Created by renowned industrial designer Anthony Hill, Gratnells Stage has the flexibility to be used for many different applications, including; drama, teaching, performances, exhibitions and musical events. With the increasing need for versatility, adaptable solutions and demountable staging, Gratnells Stage provides the ideal solution for all.

Boasting a clever yet simple lightweight design, the staging system can be assembled by the children themselves and requires no tools.

Whether it is a small area in a classroom or a larger area in a school hall or grounds, Gratnells Stage can be configured effortlessly into many different shapes and sizes to meet any personal requirements.

From show and tell, read aloud or work displays, to drama productions, musical events and award ceremonies, Gratnells Stage can be adapted to suit your needs.

Gratnells Stage
provides the ideal solution.

Simple versatility

Thanks to its unique design, Gratnells Stage can be configured into many different formats and will suit most personal requirements.

For those that require simplicity, Gratnells offers the staging system in a variety of standard kit formats but for those that require a more challenging design, additional parts and accessories are available for a bespoke build.
